Please join us for one of two sessions of the Blue Star Planetarium's Earth, Moon & Sun Program! Programs will take place at 3 and 4 pm in the Eloranta Room.

This planetarium show explores the relationship between the Earth, Moon and Sun with the help of Coyote, an amusing character adapted from Native American oral traditions. Coyote has many misconceptions about our home planet and its most familiar neighbors. His confusion about the universe makes viewers think about how the Earth, Moon and Sun work together as a system and learn to distinguish between myths and science.

You may register in advance beginning Tuesday, November 5th, or call or come that day. For more information please contact the Children's Room: 978-874-7416.
